PRESSRELEASE

 A MEMBER OF DESIGN HOTELS

To experience the true Venice means the expression of a limbo imprisoning the minds somewhere between memory and desire. An endless stream of impulses, reason is obscured..... too much stimulus, the eyes are overwhelmed and curiosity washes over the traveller. And above all Venice is there.....it has survived the futurism of every era, inextricably woven into history, immersed in mystery, beacon for artists, writers, poets, musicians, adventures, and high society ladies from across the world.

Welcome to Palazzo Barbarigo on the Gran Canal. Built in 1569 and rediscovered today as a refuge for travellers, tourists and lovers in the hearth of the San Polo quarter of Venice, an exclusive and mesmerising space affiliated with the mansions design hotels.

The interior design is most strongly inspired by art-deco, born from well refined and stunning silhouettes, deep consideration, distorted images, re-evoking of memories impressed on the mind: a pure style that lives room for interpretation and which does not suffocate the senses and encourages extraordinary thoughts.

The contemporary inspired mirrors lightly reflect the subtle dances on the water surface, but at the same time they appear without exception like shards from monolithic and unsinkable walls. A truly incredible treasure chest to be discovered within the city born from the sea.

Today's most contemporary architectural conventions in the interaction of volume and space were not only the inspiration for the development of this new hotel space but were also integral to the development of its design.

Palazzo Barbarigo, with only 18 rooms, situated directly on the Gran Canal, supersedes the traditional concept of the glamorous hotel and instead offers itself as a modern-day visual art gallery.

With an urban edge and glamour borrowed straight from the past this new edifice is fully up to speed with the very latest trends in the hotel industry.

Design, glamour and unrivalled natural location are the elements that blend perfectly creating a flawless balance in the whole.
